

Heartsaver® Bloodborne Pathogens

Make a PACT, Know How to Act™

The Heartsaver Bloodborne Pathogens Course is designed to meet Occupational Safety and Health Administration (OSHA) requirements for bloodborne pathogens training when paired with site-specific instruction.

The course covers the general OSHA Standard for bloodborne pathogens training for anyone with a reasonable chance for occupational exposure to bloodborne pathogens. It uses the PACT acronym (Protect, Act, Clean, Tell) and slogan, “Make a PACT, Know How to Act,” to help students learn and easily recall bloodborne pathogens training.

Course Features:

- PowerPoint presentation on DVD with pauses for classroom activities and discussion
- Instructor- or content expert-led
- No skills test or skills demonstration session required
- Conducted in large group setting
- Student workbook includes student participation card
- Can be taken for first-time or renewal bloodborne pathogens training

What are the course's benefits?

- New course offering from the trusted leader in workplace training makes the American Heart Association the complete resource for companies looking to meet first aid, CPR, AED, and bloodborne pathogens training needs
- Course can be completed in approximately one hour, creating an efficient stand-alone course or add-on to first aid or CPR training
- Also available online for a convenient, flexible option for those who prefer taking an online course (visit onlineaha.org for more information)
- Available in English and Spanish

What does the course cover?

Through the Heartsaver Bloodborne Pathogens Course, students learn how to:

- **P**rotect themselves from exposure to bloodborne pathogens
- **A**ct when exposed to blood or blood-containing materials in the workplace
- **C**lean themselves and the area when exposed to blood or blood-containing materials in the workplace
- **T**ell or report any exposure to blood or blood-containing materials in the workplace
